

## Oracle Primavera Educational Breakout Sessions

Presented by

**4146:** Oracle Projects and Primavera P6 Integration

**Presenter:** Kazim Isfahani, Oracle

**Track:** Master Data Mgmt/Application Integration (MDM) | Project and Portfolio Management (PPM)

**Product Line:** Oracle E-Business Suite (EBS)

Sunday, April 18

4:00PM – 5:00PM

Breakers L

This session covers Oracle's AIA process integration pack (PIP) integration of Oracle's Primavera P6 solutions and Oracle Projects. The PIP provides a smoothly functioning collaboration between project financials and work execution in an organization. Based on industry best practices, the PIP eliminates the need for manual synchronization between the two systems, and offers a business-process-based integration that is easy to deploy, configure, operate, maintain, and upgrade for the lowest TCO.

- Ensure understanding of available EBS Projects and Primavera P6 integration
- Drive awareness of the broad portfolio of Oracle's Project Portfolio Management offerings

Deliver critical insight into AIA offerings and their business value for EBS Projects customers

**4724:** Overview and Roadmap for Primavera Project Portfolio Management Solutions

**Presenter:** Yasser Mahmud, Oracle

**Track:** Project and Portfolio Management (PPM)

**Product Line:** Applicable to All

Monday, April 19

1:15PM – 2:15PM

Breakers F

Primavera P6 helps organizations elevate efficiency and performance through greater visibility and control over a portfolio of projects and programs. You will see a live demonstration of resource capacity planning and forecasting, integration of information from disparate teams for fast analysis, real time insight into project performance, and management of unplanned changes and shifting priorities. Learn how can enable your organization to better align, plan, execute and control key programs and projects

**4727:** Today's Hottest Topics in Project Portfolio Management

**Presenter:** Neeraj Garg, Project Partners LLC

**Track:** Project and Portfolio Management (PPM)

**Product Line:** Oracle E-Business Suite (EBS)

Monday, April 19

2:30PM – 3:30PM

Reef D

This presentation will discuss three of the most asked-about topics in Project Portfolio Management. We will discuss reporting strategies for Oracle EBS Projects, provide an overview of Application Integration Architecture (AIA) and explain the AIA Process Integration Packs (PIPs) for Oracle Primavera and Oracle EBS Projects applications.

- Discuss current reporting strategies for Oracle EBS Projects applications users.
- Provide an overview of Oracle Application Integration Architecture.
- Discuss the AIA Process Integration Packs for Primavera and EBS Projects apps.

**4748:** Maintain Your Edge: Portfolio Management with Agile & Primavera. A Joint Presentation with Oracle Development

**Presenter:** Sury Balasubramanian, Gaea Global Technologies

**Track:** Project and Portfolio Management (PPM)

**Product Line:** Applicable to All

Tuesday, April 20

8:00AM – 9:00AM

Reef D

Product Portfolio Management is an often neglected, but vital, component of any business involved in product innovation. This allows you to manage and allocate resources, reset priorities and maximize the value of your portfolio and ensure that it is aligned with your corporation's strategic objectives. Gaea's Oracle Agile-Primavera connector enables organizations to use Oracle Agile to efficiently manage their product lifecycles and Oracle Primavera to manage corresponding project schedules and resources.

- Find out why Product Portfolio Management is essential to your organization.
- Leverage the core strengths of Oracle Agile and Oracle Primavera.
- Learn how the Oracle-Agile connector can reduce TCO and drive value.

**77870:** Driving Capital Program and Facilities Management Success

**Presenter:** Mark Kromer, Oracle Corporation

**Track:** Project and Portfolio Management (PPM)

**Product Line:** PeopleSoft (PS)

Tuesday, April 20

2:00PM – 3:00PM

Jasmine C

This session provides insight into Oracle's comprehensive capital program and facilities management solutions. It discusses how customers can leverage their existing investment in Oracle products to lower their cost of ownership and provide better information.

- Understand Oracle's tools for facilities management: Peoplesoft, Primavera, Hyperion, Autovue
- Learn how solutions transform data into insight, facilitate collaboration, and improve management

**71090:** Primavera and JD Edwards EnterpriseOne - A Winning Combination

**Presenter:** David Scott, Oracle Corporation

**Track:** Project and Portfolio Management (PPM)

**Product Line:** JD Edwards EnterpriseOne (E1)

Wednesday, April 21

9:15AM - 10:15AM

Mandalay Bay Ballroom A

Learn how you can maximize project control and ultimately profits when you leverage end to end business process supported by JD Edwards EnterpriseOne and Primavera.

- Highlight the new capabilities now available for Project Scheduling and Field Operations.
